SACRAMENTO NEEDS OUR INPUT!

Small business people across California are making the effort and taking the responsibility to educate our leaders about the importance of small business by providing the necessary vehicles for them to assess the impact of their actions on small business.

[Small business is crucial to a healthy and thriving economy.](#)

The impact of small business on our economy, our communities and our society is deep and wide. California has over 3.6 million small businesses that account for over 98% of all businesses in the state. Small businesses provide jobs for 6.5 million employees and tens of thousands of independent contractors. Small business provides a minimum of 50% of California's private sector jobs. California's small business community is responsible for the jobs of over 18 million people in California who spend, save and invest their money in California...and pay lots and lots of taxes.

[Creating a positive, moral and ethical impact.](#)

Small businesses provide jobs for their friends, families, customers and others. This unique situation of interwoven relationships requires small business people to practice and adhere to a higher standard of ethical and moral values. If they don't, their moms will find out, or their kids won't learn to be good people.

The morality and ethics required by small business spreads exponentially throughout the community. Small business people live and work in their communities along with their employees, customers, friends and family. Small business people are socially responsible.

Small business people are compassionate. They can relate at a "gut" level to the plight of the average "Joe" because they are the average "Joe".

PROPERTY TAX INCREASES AND NEW TAXES

Both of these bills would allow local governments to create new taxes and increase property taxes on commercial, industrial and residential property owners (including property taxes) and lowers the voter requirement to increase taxes from a 2/3 majority to a 55% majority vote.

[AB 5](#)

MANDATORY SCHEDULING REQUIREMENTS

This bill would require employers to offer additional hours of work to existing employees, rather than being able to choose to hire a new employee or contractor for the additional work. The bill would create a significant burden on small businesses and expose them to lawsuits for technical violations.

[SB 772](#)

INCREASED CAL/OSHA COSTS

This bill would impose excessive costs on employers, without consideration of alternatives for Cal/OSHA regulations.
